# **OSRAM**

# XENARC COOL BLUE BOOST

Hyper white light for LED look for off-road use

Xenon hyper white light for stylish LED look

Hyper white light due to a special filling system instead of conventional coating

Up to 7,000 K1)

 $\label{eq:high-contrast} \mbox{High contrast and most stylish look}$ 

**Enhanced brightness** 

More light allows to see farther and therefore react sooner

## Hyper white light with up to 7,000 K for off-road use

XENARC COOL BLUE BOOST features hyper white xenon light for LED look and high color temperatures of up to 7,000 K. This is due to a special filling system instead of conventional coating. The lamps generate enhanced brightness. These products do not have ECE approval. This means they must not be used on public roads in any exterior application. Use on public roads leads to cancellation of operating license and loss of insurance coverage. Several countries do not allow sale and use of these products. Please contact your local distributor for information on the availability in your country.1) Measured in headlamps
